

# Construction Approval Form

*It is very important that the association be aware of work being done within units. Most importantly, to assure that any contractor doing work at the building is properly informed of irreversible damage possible to the building structure.*

*Review prior to deposits and ordering helps to avoid possible loss due to conflicts with building requirements.*

**2465 S. Washington Ave., #A111 - [PelicanPointBOD@gmail.com](mailto:PelicanPointBOD@gmail.com) - 321-268-2003**
