Welcome to our community living guide. The Banana Bay Handbook has been compiled by many board members and managers through the years with an effort to be as complete as possible. We welcome input toward meaningful amendments or additions to this document.

Our association is governed by [Florida Statute, Chapter 718](#) for Condominium Owners Associations, COAs. Condominiums. Chapter 718 represents condos, townhomes, and apartments, while Homeowner Associations, HOAs, Florida Statute, Chapter 720, represents individual houses. Copies of our documents with amendments can be found on [Clover Key Management's website](#). We are governed by a board of 5 directors with an election at our annual meeting held on the first Tuesday in March at 7:00 pm.

Please keep this handbook available to all concerned with your unit. We appreciate the opportunity to enhance the enjoyment of living at Banana Bay.

Mission Statement from your Banana Bay Board of Directors'

We strive to provide a safe community with a focus on our ecosystem that borders an aquatic preserve, the Banana River Lagoon. We support native landscaping, improving activities and amenities for all residents to enjoy the beautiful grounds. Our objective is to promote a strong maintenance program and that in turn supports high market values of our property. It is vital to protect and appropriately utilize our owner's monetary contributions, advice, and volunteer efforts in support of our association. The goal is to foster a harmonious environment for all residents.

1. Clover Key, INC. – Services and Contact Information

Clover Key, Inc has been retained by your Board of Directors to assist in the management and financial oversight of your condominium. Our services include the collection of assessments, monthly financial reports, our presence at Association meetings and the preparation of minutes of those meetings. We also oversee the condition of the “common elements” of your property and obtain bids for maintenance, repair, or replacement when necessary. We ensure that all

owners and their guests adhere to the rules of the Association (called covenant enforcement) and that the sections of their homes that affect others are maintained to the standards proposed in your governing documents. All of this is done within the parameters set forth in Florida Statute 718.

Regarding maintenance and repairs, this refers to “common area” problems (pools, sprinklers, retention ponds, landscaping, clubhouse, building exteriors, elevators, alarms, etc.) are referred to us for solutions. If items in your “limited common areas” such as doors, screens, windows, or patios need attention, we will ask that you repair or replace anything you are responsible for maintaining.

If you have a change of address, will be selling or renting your unit, have financial questions or need copies of documents, please contact us for assistance. If you receive the voice-mail message, please leave a detailed request and we will return your call promptly. For after-hours emergencies, please call 321-501-1523. Please leave a detailed message or text your questions, and the manager or maintenance personnel will be paged. Usually, late-night emergencies revolve around water, elevators, or alarms. We have contractors who will come out whenever called, but if a problem is found to be the owner’s responsibility, the bill will have to be paid at the time of service by the owner.

We strive to communicate with all owners about issues and updates at Banana Bay. To do that well, we would REALLY APPRECIATE your email address! We assure you that we do not sell or forward your email address to anyone. All communications will be by “blind copy” so that no one will see your address. We ask that you email us at office@cloverkeyservices.com with your name, unit number and phone number, along with your off-site address if you do not live here. Again, these e-mail addresses are kept confidential and are not given out to anyone. They only help your association save money on postage and paper, whenever legally able to do so.

The Board, as well as management, will periodically email updates about maintenance or upcoming social gatherings in the clubhouse.

We also offer a page on our website for each of our properties. Go to www.cloverkeyinc.com and click on the photo of the Banana Bay. There you will find minutes of Association meetings, rules and regulations, wind mitigation forms for your insurance agent, helpful forms, and other items that your Board has approved. If you have ideas for other items or links to add to your page, please let us know. We want to increase your sense of community and will help in any way possible.

The monthly fees are set by the board each budget year. Sunrise Bank is the custodian of Association funds, and they have a “lockbox” service to accept your mail in coupon with the check payment and provide proof to management of your account being credited. Owners preferring a coupon book should contact Jennifer Vo by e-mail at office@cloverkeyservices.com, There is a small fee for the coupon book. If you prefer an automatic payment, you may set it up with AppFolio.

14. Requesting Information

An owner may request information from the Association. The Board has approved the following requirements to maintain compliance with Florida Statutes.

1. Requests for information must be in writing and sent to Clover Key Management Company by Certified Mail. To expedite, a copy may be sent by email, but the email needs to be followed by a paper copy sent by Certified Mail. Response time requirements start on the day of receipt of the Certified Mail inquiry. An inquiry means a question that requires the Board or Management Company to provide a specific answer. General questions, complaints, work orders etc., do not constitute an inquiry/Request for Information.
2. A written request for information is limited to one issue per inquiry with a maximum of 5 questions related to one subject. Owner inquiries are limited to one issue for each 30-day period. The Board has ten (10) business days to respond to a written request. However, the Association is permitted additional time if the Board Needs an opinion or input from:
 1. The Florida Division of Condominiums regarding compliance with Florida Statutes. If input from the Division is needed, the Board has ten (10) days to respond to an inquiry after receipt of the input from the Division.
 2. Legal Opinion: If a legal opinion is required, the Board has sixty (60) days to respond to recipient of the written request.
3. This policy and procedures are governed by Florida Statue 718. The Statue supersedes any portion of this policy and procedure. At the time of approval, this policy and procedure follows State requirements.

16. Security / Common Area and Unit Access / Unit Emergencies

COMMON AREA ACCESS:

1. Unit owners are to obtain mailbox and pool restroom keys from the seller. Banana Bay does not provide or replace mailbox keys. Replacement pool restroom keys may be requested through AppFolio work order with Clover Key, Inc. The unit owner will be billed \$5.00 the following month for each copy of the key.
2. Tenants and guests must request mailbox and restroom keys from unit owner and/or host. Banana Bay does not provide keys to non-owners.
3. Cameras are installed in the clubhouse and pool area. Trail Cameras may be used in areas such as the north pool, kayak area and trash disposal areas as the board deems necessary.

UNIT ACCESS:

1. The Board of Directors maintains a protected lock box, within the condominium office, containing keys to each unit. Use of these keys is restricted to addressing common and limited element emergencies, extermination inspections as well as inspections necessary to maintain limited and common elements.
2. Unit Owners and/or residents must provide a copy of the keys to access the front door. For townhomes, a gate key, if needed, must be provided. If electronic locks are used, an access code must be provided.
 1. Section 718.111 (5)(a) of the Florida Condominium Act states that an association has the irrevocable right of access to each unit during reasonable hours when access is necessary to maintain, repair, or replace the common elements or any portion of a unit that the association maintains, or if it is necessary to prevent damage to the common elements or another unit.
 2. If access to a unit is deemed necessary by a Board Officer and the keys or codes are not provided, the Board will hire a locksmith to unlock the door and/or gate. If a locksmith is unable to unlock the locks, the lock(s) may be drilled out to gain access to the unit. The expense for a locksmith will be billed to the unit owner through AppFolio. Billing will include locksmith charges, and, if needed, charges for replacement locks and keys.
 3. It is suggested you confidentially maintain an extra key within your automobile or to a trusted friend or neighbor. This may prevent a delay or "lock out" in efforts to locate a board member or Banana Bay Management for lock box access to our condominium keys. In case of an emergency, trained medical response teams or police officers will open your door if locked and you cannot respond. In case of an emergency, DO NOT wait for a board member or Banana Bay Management to locate a key. Doors can be more easily repaired than our residents.
 4. The cost to repair and/or replace Doors that are damaged for emergency entrance by anyone, including emergency personnel, is the responsibility of the unit owner. Costs will be billed through AppFolio and are due upon receipt.
 5. The Board of Directors cannot and will not assume the risk for anyone entering units during unit owner absence using our condominium unit keys for maintenance, cleaning, or other use. It is your responsibility as an owner to provide separate keys to such contractors, individuals, or your designated agent. Keys for units will ONLY be made available to any workmen who are accompanied by our manager or maintenance personnel in the performance of their duties. This is policy UNLESS a waiver of

responsibility for loss or damage is on file with the association. Such waiver is to be signed by the unit owner.

6. Should it be your choice to furnish separate keys to our maintenance person for his use to perform after-hour services to your unit, please inform the Board in writing of such access authority. During the hourly scope of our maintenance person's employment, our Board cannot subject itself to the risk of liability by allowing him to open units for third party access. This includes any units where the owners have entrusted their unit keys to him personally as well. To protect your Association, it is again suggested that you engage the assistance of a trusted friend, neighbor, or agent to act in your behalf whenever access to your unit is required.

UNIT EMERGENCIES:

Your Association expects to use its best efforts to gain control over emergencies, especially where common elements may be involved. Emergencies such as flooding from unit owned plumbing and air conditioner/heat pump equipment are the responsibility of the unit owners to control and to extract any water flooding. Emergency efforts from your Association can be expected to assist with absentee owner problems at the owner's expense.

17. Reminders for Vacation and Seasonal Departures

Whenever a unit owner or their tenants depart from Banana Bay, it is important that precautions be taken prior to departures such as:

1. **BALCONY FURNITURE OR OTHER ITEMS:**

Open balconies/decks and patios should be cleared of all items; they can become flying objects that damage buildings during severe windstorms or hurricanes. This includes Barbecue grills and propane tanks. In the case of a named storm and implementation of The Hurricane Plan, unit owners may be charged for moving items into a unit.

2. **SLIDER DOOR SILL TROUGH:**

Weather-seal trough by tightly stuffing towels along its entire length, as wind driven rain will blow water onto your carpet and sidewalls. This will result in water damage within your unit, and, in the case of the mid-rise buildings, any units located below your unit.

3. **CITY WATER:**

The city water valve within or outside your unit must be cut off to prevent water leaks from flooding your unit or any units below. TEST your cut off by running water from a nearby faucet before your departure.

4. AIR CONDITIONER/HEAT:

- During an absence, even for short periods, the air conditioning systems must be left on at a minimum of 78 degrees Fahrenheit. This is to prevent MOLD from forming in a unit. Air Conditioning should be left on during winter months too.
5. Prior to departure, unit owners must assure that HVAC condensate drainpipe is clear of debris and algae. Unit owner should pour half a cup of vinegar or proper solution to avoid algae growth in the drain line.
 6. Banana Bay Employees, Board Members, or Management Company Personnel DO NOT conduct/perform NON-EMERGENCY courtesy inspections of a unit while an owner or tenant is away. For example, after a storm Banana Bay personnel do not go inside units to “check things.” Please decide with a local person or agency to check on your property.
 7. Verify that Condominium Association has key(s) and/or Codes to open doors and, for townhomes, gate. In case of emergency and/or access needed for maintenance like water leak, the Association will authorize drilling of the lock(s) to gain access. All costs to gain access and to secure unit are the responsibility of the unit owner.

18. Barbecue Grills and/or Smokers (Fire Code Regulations for Multi-Family Units)

1. A grill or smoker must be ten feet away from any structure or overhang.
2. The type of grills or smokers can be gas or electric.

4. A maximum of five cylinders may be stored in garages or units.

Residents are required to consult with the Board of Directors before removing any trees, bushes, shrubs, or plants on the common property. Removing plants and/or trees, without authorization of a Board Officer or Management Company, in Common Areas may be considered vandalism.

1. Townhome Courtyard and Common Area Plantings
2. Twice a year, the Board conducts a review of the town home courtyards for plantings that may need trimming or attention. The Hurricane Plan requires a review during June/July of each year. This is done to assure compliance for appearance, insurance purposes and to avoid damage to structures.
3. If a questionable situation is noted, an email will be sent to the owner by Clover Key Management. Details and pictures of what needs to be corrected will be included. Owners have two weeks, 14 days, from the date of the email to correct the noted violations. An extension of time may be requested by emailing Clover Key Management; a decision will be provided within two business days. Extensions over 30 days will not be approved.
4. After 14 days, the Association may hire landscape and/or tree trimming contractors to correct issues. Contractors hired may enter the courtyard at any time between 8:00AM and 4:00PM, to complete the work. Access to the courtyard will be provided by Banana Bay Maintenance Staff. The owner will be notified of the event and hopefully obtain a mutually agreeable resolution.
5. The owner will be billed the cost charged by the contractors. The charge for work done due to non-compliance for the violation notice will be billed to the unit through AppFolio/Clover Key Management. This is work being done on behalf of an individual unit owner and not the responsibility of other owners. The amount charged is subject to late fees and collections. 6. Yard Waste from courtyards must be disposed in yard waste containers located in parking Sections 1, 2, 3 and behind the 2300 garages.

If there is yard waste outside your unit that is not yours, contact Clover Key Management by phone or email.
9. Banana Bay is responsible for sprinklers inside courtyards. Please put in a work order when necessary.
10. Trees, bushes, shrubs should not lean on or interfere with a unit courtyard fence. Trees, bushes, or shrubs must be trimmed on the owner side of the fence and not protrude through the fence. All plants must be trimmed/maintained at least one foot from fence. Vines and climbing plants are not permitted to grow on the fence or any part of the building.

11. Trees, bushes, or shrubs, with certain exceptions for palm trees and high tree branches, should not exceed the fence by more than three (3) feet onto common property. Trees less than one foot from the fence may hamper fence maintenance and pose a threat in high winds.
12. Trees, bushes, or shrubs shall not touch the building trim under roof, the roof, or lean upon or adhere to the wall of the house. All trees and plants must be a minimum of two feet from the roof line. This includes the canopy of the tree, not the main trunk.

Where plants protrude more than two feet onto the common property, they may be removed, and sod replaced in the area unless individually and specifically approved by the Board of Directors. The Banana Bay Landscape Contractor may trim all plants outside the fence on the common property. An exception to this policy may be made by the Board of Directors.
14. To install new plants or replace existing plants, submit a plan to the Board by email through Clover Key Management. The plan will include a drawing of the area to be planted with dimensions. A list of plants with pictures is to be included.
15. Trees may not be planted in the two-foot area along the fence. Tree roots interfere with underground utilities that run along the fence.
16. Damage done to underground utilities and irrigation while planting outside or inside a courtyard is the responsibility of the unit owner. This includes damage when stump removal is being completed.
17. The Association is not responsible for any costs associated with installation, maintenance, etc. of plants installed by an owner.

Directors. The cost of repairs will be billed through AppFolio with an administrative fee to cover costs. Unpaid amounts are subject to collection, late fees, and legal expenses.

24. Contractors hired by owners or residents for landscaping must be insured for damage done to the building, fence, and underground utilities including the irrigation system. If Banana Bay needs to make repairs caused by a contractor hired by a unit resident, the unit owner will be billed the full amount of the repair and administrative charges to supervise the repairs. Charges will be billed to the unit through AppFolio. These charges are subject to late fees, collection charges, and legal expenses.
25. If an owner wants to mulch outside the fence, they are limited to cypress mulch to maintain consistency throughout the property. Mulch of a different color may be removed by Banana Bay. Mulch made of rubber, recycled tires, etc. is not recommended on Banana Bay property, including inside courtyards, for environmental reasons.
26. No lighting may be installed outside the courtyard fences. Solar light collectors installed outside the courtyard fence may get in the way of landscapers. Small fences and/or garden borders outside of the courtyard fence or gate around sidewalks are not allowed. Variances can be made on a case-by-case basis.

Mid-rise Building Plantings

1. In the recent past all plants except for palm trees were donated or planted by residents in the mid-rise courtyards. These plants are for the enjoyment of all residents.
